

Front sprayer frame and Shark sprayer

Suitable for lane widths of up to 2.40m

Thanks to its light yet sturdy construction, freilauber's front sprayer frame is ideally suited for controlling weeds using weedkiller. It can be fitted to all tractor types and is easy to fit. Its height can be adjusted hydraulically and its tilt and width electronically. The nozzle holders and the frame are fitted with collision protection.

Optional extras

- Height adjustment by double-acting cylinder
- Solenoid valves (no hose in the cabin) with torque switch-off and line filter
- Nozzles for treating whole areas and nozzle holders for bud spraying
- Nozzle holders for 3m lanes
- Shark spray boxes
- Support foot

Front sprayer frame and Shark Sprayer

The Shark spray guards

- The Shark spray guards are not over-row devices, but nevertheless, the nozzles are so arranged that you only need to drive past once and the vines will have been sprayed all around
- Essentially: Thanks to a specially developed baffle plate, there is no drift upwards!
- Shark: In one-sided treatment, approx. 280g/ha or 160 litres/ha at 2 bar
