Multi-row sprayer trailer

The sprayer trailer you can depend on

Fans are fitted with collision protection.

Hydraulic three-point tensioning, resulting in optimum driving performance in the vineyard.

Valve unit for six boom sections, with electric pressure adjustment.

The pump is fitted to the three-point mounting, meaning that no extended PTO shaft is needed, which means the turning radius is very narrow.

Standard configuration

- Galvanised base frame
- Stainless steel tank with high-grade steel baffle
- Braked tandem axle
- Hydraulic linear width offset
- Continuously adjustable hydraulic air performance
